I am an aspiring junior frontend developer - skilled in HTML, CSS and JavaScript and familiar with libraries like React. I have several years of experience in e-commerce marketing, but my passion for frontend development has led me to become more involved in the development environment. I am seeking opportunities to further develop my frontend skills and explore possibilities for work in the programming field.

SKILLS

HTML/CSS

JavaScript

React

REST APIs

Git

SWR

Courses

Front-end Developer

[React]

03.2023 - 07.2023

Others

english language - B2+ level

basic knowledge of Figma

GA

Canva

Discord

EDUCATION

Faculty of Economic and Sociological Sciences

Major: Economics

Master's Degree, full-time | 10.2012 - 08.2014

Academy of Fine Arts in Łódź

PORTFOLIO

Fashion Ecommerce

This application is based on the Fake Store API, which aims to create a simulated online shopping experience. The application allows users to browse and 'purchase' various products available in the Fake Store inventory. In my project I used React Use Cart, SWR, React Router Dom, and Phosphor React.

Photo App

The data in this application is fetched from the Unsplash API, which allows users to browse through photos/collections. Users also have the ability to search for images based on keywords. I used SWR and React Router Dom libraries.

Flashcards

The main idea of this project is to help users learn English words. Definitions, pronunciations, and other information are fetched from the dictionaryapi. I used the SWR and React Router Dom libraries and local storage to save the data (words).

WORK EXPERIENCE

Key Account Manager CEE

Kwanko SAS | 01.2020 - current
